

The logo for ADO features the word "ADO" in a bold, dark blue, sans-serif font. The letters are centered and flanked by stylized, grey, wing-like shapes that extend horizontally. These wings are composed of three parallel lines that taper towards the center, creating a sense of motion and speed.

THE BRANDS

From the beginning of our journey of offering the world market highest quality products, we have been dedicated to become “the world’s leading building materials producer.” We have taken it as our mission to provide our customers with the highest quality products and a wide range of services on a global scale.

ADO

HEAVEN ON EARTH

In the early 2nd century BC, the Pergamon King Attalos II ordered his men to find heaven on earth. After an extensive search, they discovered Antalya.

More than 2,000 years later, the great leader Atatürk also said: “Undoubtedly, Antalya is the most beautiful place in the world.”

FLOORING

Founded in 2015 as part of the ADO Group of Companies whose facilities spread over 610,000 square meters in total, ADO Floor launched production a year later in Turkey's only LVT & SPC manufacturing plant, operating in an indoor area of 25,000 square meters. Manufactured with the most advanced technology and techniques available in the field, ADO Floor products bring the naturalness of wood and the durability of Vinyl together, with ease of installation and use.

ADO Floor is the only LVT & SPC flooring manufacturer of Turkey, with a production capacity of **more than 6,000,000** square meters flooring material per year.

The logo for ADO Floor features the word "ADO" in a large, bold, dark blue font, with stylized grey wings on either side. Below "ADO" is the word "Floor" in a smaller, grey, sans-serif font.

NEW PERSPECTIVE ON A BETTER GROUND

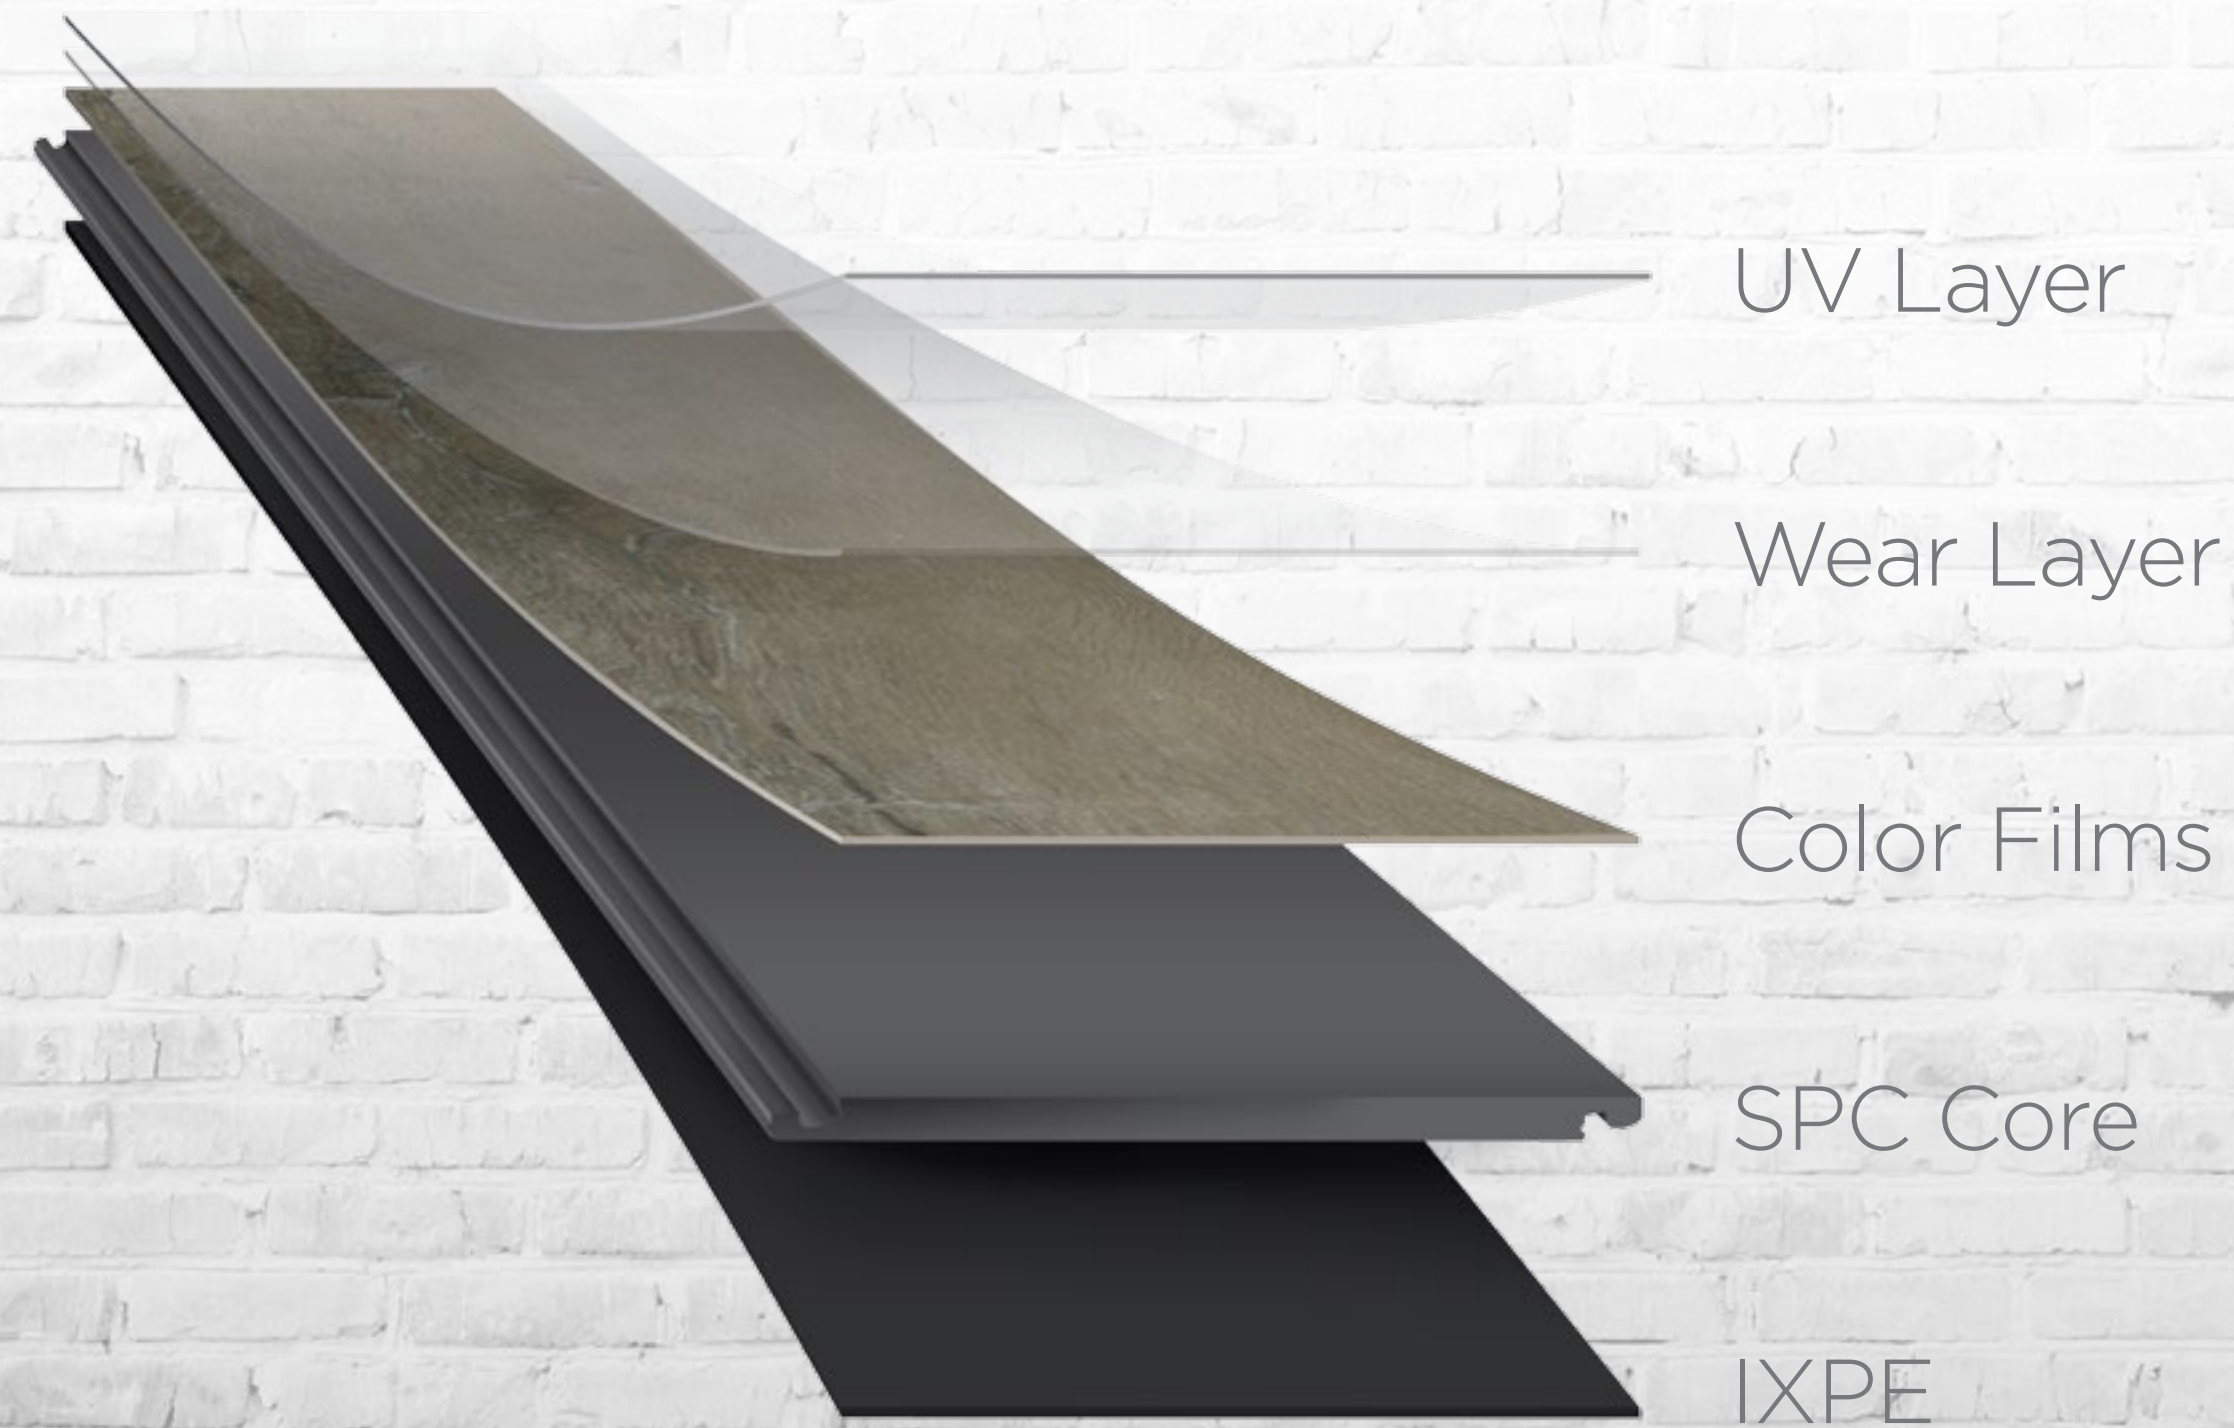

FORTIKA

PREMIUM SPC FLOORING

ADO Floor's Brand New SPC Collection is up to the task in both home and commercial settings. Design your affordable, easy-care, and fashionable flooring, without sacrificing comfort and style.
